**RE: Northmont High School, Permit # 1GC04369\*AG; construction site inspection**

Dear Mr. McClintock:

On Thursday, May 16, 2013, I inspected the Northmont High School construction project to determine compliance with its NPDES storm water discharge permit. I was accompanied by Eric Damian and James Schwieterman, who are doing summer internships with Ohio EPA. We met with Matt Huelsman from Shook Construction at the job trailer, and walked the project site with Jim Doughty from Mark's Excavating and Trucking.

Based on our observations, there were no apparent violations of the site's NPDES construction site storm water discharge permit. Inspection logs kept for sediment controls used at the site were not present at the time of the inspection, but were emailed to me by Ted Mann on Monday, May 20, 2013.

Post-construction storm water management practices to be used at the site were not discussed, but will be addressed in follow-up conversations with Mr. Huelsman.

If you have questions regarding the letter you can contact me at (937) 285-6442, or via email at [chris.cotton@epa.ohio.gov](mailto:chris.cotton@epa.ohio.gov).

Sincerely,

A handwritten signature in black ink that reads 'Chris Cotton'.

Chris Cotton  
Environmental Specialist II  
Division of Surface Water
