**Re: Farm Credit Mid-America / Fairfield County**

Dear Ms. Wright:

This letter is written in follow-up to a construction storm water inspection that I conducted on May 22, 2013, at the Farm Credit Mid-America project located near the intersection of State Route 256 and State Route 37, in Baltimore, Ohio. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following was noted:

**Sediment and Erosion Controls:**

- There was no active construction at the site during the inspection. There was no erosion leaving the site and no barren areas. You are in compliance with your General Storm Water Permit.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water  
Central District Office
