RE: Bethany Road Widening; NPDES Permit # 1GC03867*AG; Construction Site Inspection

Dear Mr. Brigano:

On Tuesday, May 28, 2013, I inspected the Bethany Road Widening project located in Mason, Ohio, to determine compliance with its NPDES construction site storm water discharge permit. I met with you and drove the length of the site.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. The site's storm water pollution prevention plan (SWP3) as well as the inspection records for sediment controls were reviewed.

As I told you, the site was ready for submittal of the one page "notice of termination" (NOT) form found at http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf. This should be completed and sent to the following address:

Ohio Environmental Protection Agency
General Permit Program
PO Box 1049
Columbus, OH 43216-1049

If you have questions regarding this letter you can contact me at 937-204-1003, or via email at eric.damian@epa.ohio.gov.

Sincerely,

Eric Damian
Storm Water Group
Division of Surface Water
