Re: **Notice of Violation**
Allen County
Elida WWTP
Ohio EPA Permit No. 2PB00046
NPDES Permit No. OH0024996

June 3, 2013

Ms. Janelle McKee
Superintendent
Village of Elida
P.O. Box 3074
Elida, Ohio 45807

Dear Ms. McKee:

We are in receipt of your self-monitoring reports covering the months of January through March 2013 for the referenced facility. Our review indicates violations of the conditions of your National Pollutant Discharge Elimination System (NPDES) permit. The specific instances of non-compliance are enclosed on a separate sheet. Further review of your self-monitoring reports for the previous six months, ending in March 2013, indicates that you are in significant non-compliance (SNC) with an effluent limitation contained in your NPDES permit. The specific instance of SNC is enclosed on a separate sheet.

A facility becomes in SNC when it exceeds the effluent limit for four or more months in two consecutive quarters or exceeds the effluent limit significantly in any two months in two consecutive quarters. Achieving compliance with Ohio's environmental laws is a primary focus of Ohio EPA in order to reduce risks to public health and welfare.

Within 14 days of the date of this letter, please submit, in writing, the reasons for the violations and the actions that you propose to undertake in order to return your facility to compliance with your NPDES permit. In that response you will need to provide a timeline for these actions that does not extend past August 31, 2013. Your responses and timetable may also be submitted by email to me at Justin.Williams@epa.ohio.gov.

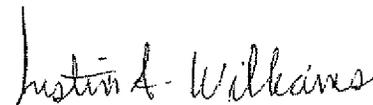

If we do not receive your timely response or if your response does not adequately address the violations included with this letter, the Director of Ohio EPA will likely take an enforcement action against you to bring this treatment facility into compliance with Ohio law.

Ms. Janelle McKee

Page Two

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. Information about Ohio EPA's Office of Compliance Assistance & Pollution Prevention can be found on Ohio EPA's Website at <http://epa.ohio.gov/ocapp> or by calling (614) 644 – 3469.

If there are any questions or if you wish to meet with our office to discuss this matter, please contact me at (419) 373 – 3022 **within 10 days** of receiving this letter.

Sincerely,

Justin A. Williams
Environmental Specialist II
Division of Surface Water

County	Permit #	Facility Name	Major	Station Code	Param Code	Parameter Name	Max % Exceed	# Months Signif Exceed (1)**	# Months Exceed (2)**
Allen	2PB00046	Elida WWTP		1	00530	Total Suspended Solids	66.3	2	5

Footnotes

for Significant NonCompliance

** Significant non-compliance with effluent limits occurred if one or more pollutants met the following conditions:

1. During 2 or more months, the reported effluent concentration (or computed load) for a parameter exceeded an effluent limit by:
 - a. 40% for Group 1 pollutants **plus Fecal Coliform**
 - b. 20% for Group 2 pollutants **plus pH, Temperature, whole effluent toxicity**-- or --
2. During 4 or more months, the reported concentration (or computed load) exceeded the limit by > 1%.

Note: This method differs from USEPA Significant Non-compliance (SNC) method in the following ways:

- USEPA only evaluates SNC for average limits. In above analyses, maximum and weekly limits were also considered.
