Re: **Notice of Violation**  
Sandusky County  
Concrete Material Supply  
Elmwood Communities Home Office  
Storm Water Construction

June 7, 2013

Mr. Tim Brothers  
Concrete Material Supply  
995 County Road 224  
Clyde, Ohio 43410

Dear Mr. Brothers:

On the afternoon of May 30, 2013, just before 3:00 p.m., I observed the driver of a Concrete Material Supply truck washing out the truck's chute next to a catch basin at the Elmwood Communities Home Office Construction site located at 1545 Fangboner Road, Fremont, Ohio, Sandusky County.

Ohio Revised Code (ORC) 6111.04 requires that "No person shall cause pollution or place or cause to be placed any sewage, sludge, sludge materials, industrial waste, or other wastes in a location where they cause pollution of any waters of the state". *The actions of this driver are a violation of ORC 6111.04.*

As a part of any construction site Storm Water Pollution Prevention Plan, sediment and erosion controls are to be placed so that sediment and other pollutants from a construction site do not impact waters of the state. All construction sites are to have a specific area designated for concrete wash out and all contractors are to use that specific site.

Please provide training to your drivers and any other appropriate personnel of the requirement to only wash out trucks and chutes where the wash water and concrete cannot impact waters of the state.

If these violations continue, enforcement action may be necessary to achieve compliance. If you have any questions, you may contact me at 419-373-3016 or at: [patricia.tebbe@epa.ohio.gov](mailto:patricia.tebbe@epa.ohio.gov).

Sincerely,

Patricia A. Tebbe, PE  
Division of Surface Water
