Re: **Notice of Violation**
Allen County
Flying J #695
Ohio EPA Permit No. 2IN00241
NPDES Permit No. OH0143553

June 7, 2013

Mr. Joey Cupp
Environmental Manager
Pilot Travel Centers, LLC
5508 Lonas Road
Knoxville, Tennessee 37939

Dear Mr. Cupp:

We are in receipt of your self-monitoring reports covering the months of January through March 2013 for the above referenced facility. Our review indicates a violation of the conditions of your National Pollutant Discharge Elimination System (NPDES) permit. The specific instance of non-compliance is enclosed on a separate sheet.

We have received an emailed response from Mr. Christopher O'Neil dated January 11, 2013, and require no further information for the violations at this time.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General Conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code (ORC) Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image
