Re: Butler Farms / Franklin County

To Whom it May Concern:

This letter is written regarding the storm water inspection I conducted on May 30, 2013, of the construction activities at Butler Farms, located along Lockbourne Road. I understand this site is currently covered under the General Storm Water Permit Associated with Construction Activities. Based on my site inspection and the conditions set forth in the General Permit, the following items must be addressed:

Sediment and Erosion Controls:

There was no active construction during my inspection at the Butler Farms Subdivision. One home site was not stabilized and the erosion controls needed to be maintained. I believe this site was owned by Rockford Homes. Please maintain erosion controls and stabilize the barren areas.

A concrete wash-out pit was installed and maintained at the site.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Stormwater Section
Division of Surface Water
Central District Office
