RE: Ahresty; NPDES Permit # 1GC04569*AG; Construction Site Inspection

Dear Mr. Weaver:

On Tuesday, June 11, 2013, I inspected the Ahresty project located at 2627 S. South St. in Wilmington, Ohio, to determine compliance with its NPDES construction site storm water discharge permit. I walked the property, but did not meet with anyone while at the site.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. I did not review sediment control inspection logs, or the site's storm water pollution prevention plan (SWPPP).

As a reminder, please note that when construction is complete and all areas of the site have been permanently stabilized with vegetation or other ground cover, the construction permit must be terminated. A one page "Notice of Termination" (NOT) form can be found at http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf. It must be completed and sent to the following address:

Ohio Environmental Protection Agency
General Permit Program
P. O. Box 1049
Columbus, OH 43216-1049

If you have questions regarding this letter, you can contact me at (937) 285-6357, or via email at eric.damian@epa.ohio.gov.

Sincerely,

Eric Damian
