RE: Heatherstone Force Main; NPDES Permit # 1GC04613*AG; Construction Site Inspection

Dear Mr. Goetz:

On Monday, June 17, 2013, I inspected the Heatherstone Force Main Project located at 315 Heather View to the intersection of Clough Pike and Taylor Road in Batavia, Ohio, to determine compliance with its NPDES construction site storm water discharge permit. I walked the property, but did not meet with anyone while at the site.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. I did not review sediment control inspection logs, or the site's storm water pollution prevention plan (SWPPP).

As a reminder, please note that when construction is complete, and all areas of the site have been permanently stabilized with vegetation or other ground cover, the construction permit must be terminated. A one page "notice of termination" (NOT) form found at <http://www.epa.ohio.gov/Portals/35/permits/General NOT.pdf> must be completed and sent to the following address:

Ohio Environmental Protection Agency
General Permit Program
P. O. Box 1049
Columbus, Ohio 43216-1049

If you have questions regarding this letter, you can contact me at (937) 204-1003 or via email at eric.damian@epa.ohio.gov.

Sincerely,

Eric Damian
Storm Water Group
Division of Surface Water
