Dear Mr. Granteed and Ms. Forslund:

On May 31, 2013, I visited the sites located on County Road 57 that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

**No violations of the terms and conditions of the permit were discovered. Please continue to implement permit requirements as construction continues. In order for the permit to be terminated, the project area needs to be stabilized more with seed and straw.**

When further stabilization is complete, or if there are any questions, please contact Aaron Wolfe at (740) 380-5277 or myself at (740) 380-5447.

Sincerely,
