Re: Tuscarawas County
Guernsey to Lewis Pipeline Project
McCook to Herron Pipeline Project
Storm Water Construction Activity
Permit OGC01895*AG; Permit OGC01898*AG

Mr. Russ Ferrell
East Ohio Gas Co.
320 Springside Drive, Suite 320
Akron, Ohio 44333

Dear Mr. Ferrell:

On June 18, 2013, I visited the Guernsey to Lewis Pipeline Project site located from Gravel Lick Road (Tuscarawas) to Bethel Road (Harrison) that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

No violations of the terms and conditions of the permit were discovered. Please continue to implement permit requirements as construction continues.

On June 10, 2013, I attempted to visit the McCook to Herron Pipeline Project site located at the intersection of County Road 89 and Holmes Church Road that has a construction storm water permit with the Ohio EPA. I was unable to locate the project site. If the project has not yet begun, please be sure to implement the permit requirements when it does begin. If the project has begun, please provide an address or GPS coordinates to allow better location of the site.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or me at (740) 380-5447.

Sincerely,

A handwritten signature in blue ink, which appears to read 'Clinton Kuenzli', is written over the 'Sincerely,' text.
