Re: Noble County
2013 TL-388 Pipeline Replacement Project
Storm Water Construction Activity
Permit #OGC01957*AG

Ms. Sheri Franz
Dominion Transmission, Inc.
445 W. Main Street
Clarksburg, WV 26301

Dear Ms. Franz:

On May 31, 2013 I visited the site located on Township Highway 200 in Summerfield, Ohio that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statues, Ohio Revised Code (ORC) Chapter 6111.

At the time of the inspection, the project had not begun. When the project does begin, you must implement storm water controls as outlined in Ohio EPA Permit OHC000003.

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or myself at (740) 380-5447.

Sincerely,

A handwritten signature in blue ink, which appears to read 'Clinton Kuenzli', is written over the 'Sincerely,' text.
