**Re:** Meigs County  
Pomeroy Combined Sewer  
Separation Project  
Storm Water Construction Activity  
Permit # OGC01674\*AG

Mr. Paul Hellman  
Village of Pomeroy  
660 E Main Street, Suite A  
Pomeroy, Ohio 45769

Dear Mr. Hellman:

On May 29, 2013, I visited the sites located at the Pomeroy Wastewater Treatment Plant, Naylor's Run, and Sugar Run that have a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

**No violations of the terms and conditions of the permit were discovered. Please continue to implement permit requirements as construction continues.**

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or myself at (740) 380-5447.

Sincerely,

A handwritten signature in black ink, which appears to read "Jared Kemper". The signature is written in a cursive style.

Jared Kemper
