**RE: ATK Space Systems, Inc. Storm Water Compliance Inspection**

Dear Mr. Szweda:

On June 14, 2013, an inspection of the ATK Space Systems, Inc. (ATK) facility located at 5016 Hempstead Station Drive, Kettering, Ohio was performed to assess the certification of "No Exposure" that ATK Space Systems, Inc. filed with the Ohio Environmental Protection Agency (Ohio EPA). ATK's Permit number is 1GRN00238\*DG, issued on November 24, 2008.

On the day of the inspection there were no industrial activities or materials exposed to the elements and the claim of "No Exposure" appears to be valid. The building is strictly an office building, and ATK occupies only part of the building.

If ATK Space Systems, Inc. operations change so that industrial activities or materials become exposed to the elements then a Notice of Intent to be covered under the Industrial Storm Water General Permit ([http://www.epa.ohio.gov/portals/35/storm/Industrial NOI Form.pdf](http://www.epa.ohio.gov/portals/35/storm/Industrial%20NOI%20Form.pdf)) must immediately be submitted to Ohio EPA with the required fees.

Please be aware that the "No Exposure" status expires on November 24, 2014. Prior to that date Ohio EPA intends to notify all facilities subject to the Industrial Storm Water General Permit of the need for application for renewed coverage. ATK Space Systems, Inc. should follow the instructions provided by Ohio EPA at that time to ensure continued permit coverage.

If you have any questions about the inspection or this letter, please contact me at (937) 285-6028.

Sincerely,

Michelle Waller  
Environmental Specialist II  
Division of Surface Water
