RE: Signal Hill Expansion; NPDES Permit # 1GC04052*AG; Construction Site Inspection

Dear Mr. Trick:

On Friday, June 28, 2013, I visited the Signal Hill Expansion project located along Colonel Glenn Blvd. just west of the Grange Hall Rd. intersection in Beavercreek, Ohio. The intent of the inspection was to determine compliance with the site's NPDES construction permit.

At the time of the visit, it was determined that the project in question has been completed. Land disturbed by various construction activities appeared to have been adequately stabilized with landscaping or the planting of grass and/or other vegetation.

Since the project has been completed, a Notice of Termination (NOT) must be submitted to Ohio EPA. This one page form is available at http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf. It must be completed and sent to the following address:

Ohio Environmental Protection Agency
General Permit Program
P.O. Box 1049
Columbus, OH 43216-1049

If you have questions regarding this letter, you may contact me at (937) 204-1003, or via email at eric.damian@epa.ohio.gov.

Sincerely,

Eric Damian
