**RE: Old Troy Pike Phase 8; NPDES Permit #1GC04327*AG
Compliance Inspection Findings**

Dear Mr. Gilbert:

On Friday, June 28, 2013, I inspected the Old Troy Pike Phase 8 site in Huber Heights, Ohio to determine compliance with the site's NPDES construction site storm water discharge permit. No one was present at the site during the inspection.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. I did not review the sediment control inspections logs or the site's storm water pollution prevention plan before my inspection. Inspection records of the erosion control BMPs are required to be kept on the construction site.

As a reminder, please note that when construction is complete, and all areas of the site have been permanently stabilized with vegetation or other ground cover, the construction permit must be terminated. A one page "Notice of Termination" (NOT) form, found at http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf, must be completed and sent to the following address:

Ohio Environmental Protection Agency
General Permit Program
P.O. Box 1049
Columbus, OH 43216-1049

If you have any questions regarding the NPDES permit, you may contact me at (937) 204-1002 or via email james.schwieterman@epa.ohio.gov.

Sincerely,

James Schwieterman
Storm Water Group
Division of Surface Water
