Re: Fulton County
Paigelynn Place
Storm Water Construction
Permit No. 2GC00663*AG

July 3, 2013

Mr. James Saad
Paigelynn Place LLC
229 Huber Village Boulevard Suite 130
Westerville, Ohio 43081

Dear Mr. Saad:

On June 12, 2013, I conducted an inspection of the Paigelynn Place subdivision located south of US 20-A in the Village of Swanton, Fulton County. The purpose of this visit was to evaluate compliance of the site with the National Pollutant Discharge Elimination System (NPDES) permit for storm water discharges associated with construction activity also known as the Construction General Permit (CGP). Observations made are under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

The CGP was issued to the Paigelynn Place LLC on November 15, 2004. A Mr. Walt Whitmyre was named as contact on this permit. Construction on this project appears to be complete. Once a site has installed the post construction storm water controls according to the CGP and has attained a uniform perennial vegetative cover, a permit may be terminated.

In order to determine if you meet the eligibility for termination, please submit to me, for review, the post construction specifications and details of the Storm Water Pollution Prevention Plan (SWP3) used to design post construction best management practices (BMPs).

If you have any questions, you may contact me at (419) 373-3016 or by e-mail at patricia.tebbe@epa.ohio.gov.

Sincerely,

Patricia A. Tebbe, P.E.
Division of Surface Water
