Re: Washington County
East Ohio Gas Co.
PIR 427 L#RT4 Pipeline Replacement
Storm Water Construction Activity
Permit OGC01657*AG

Mr. Mark Ervin
East Ohio Gas Co.
320 Springside Drive
Suite 320
Akron, Ohio 44333

Dear Mr. Ervin:

On June 13, 2013, I visited the site located on SR 7 that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

No violations of the terms and conditions of the permit were discovered. Please continue to implement permit requirements as construction continues.

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or me at (740) 380-5447.

Sincerely,

Joe Cook
