Re: Mercer County
Coldwater Exempted Village School
Storm Water Construction
Permit No. 2GC00420*AG

July 10, 2013

Mr. Rich Seas, Superintendent
Coldwater Exempted Village Schools
310 North Second Street
Coldwater, Ohio 45828

Dear Mr. Seas:

On June 13, 2013, I conducted an inspection of the Coldwater Exempted Village Schools, located at 310 North Second Street in the Village of Coldwater, Mercer County. The purpose of this visit was to evaluate compliance of the site with the National Pollutant Discharge Elimination System (NPDES) permit for storm water discharges associated with construction activity also known as the Construction General Permit (CGP). Observations made are under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

The CGP was issued to the Coldwater Exempted Village Schools on April 22, 2004. Construction on this project appears to be complete. Once a site has installed the post construction storm water controls according to the CGP and has attained a uniform perennial vegetative cover, a permit may be terminated.

In order to determine if you meet the eligibility for termination, within 15 days, please submit to me for review the post construction specifications and details of the Storm Water Pollution Prevention Plan used to design post construction BMPs.

If you have any questions, you may contact me at (419) 373-3016 or by e-mail at patricia.tebbe@epa.ohio.gov.

Sincerely,

Patricia A. Tebbe, P.E.
Division of Surface Water
