**RE: GE QTC; NPDES Permit # 1GC04396\*AG; Construction Site Inspection**

Dear Mr. Carney:

On Tuesday, July 9, 2013, I visited the GE QTC located at 10270 St. Rita Lane in Evendale, Ohio, with the intent of determining compliance with the site's NPDES construction permit.

From the documents submitted to the Ohio EPA in September 2012, the construction activity seemed to include a parking lot expansion. At the time of my visit I did not witness any work taking place on any of the parking lots that surrounded the facility. I did notice a cleared area to the east of the facility that was surrounded by silt fence. It is unclear whether or not the construction activities have yet to be started or have been completed in this area.

If the project is scheduled for a later date the permit can be kept open. However, if the project has already been completed or if the project is no longer scheduled to take place a Notice of Termination (NOT) must be submitted to Ohio EPA. This one page form is available at [http://www.epa.ohio.gov/Portals/35/permits/General\\_NOT.pdf](http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf). It must be completed and sent to the following address:

Ohio Environmental Protection Agency  
General Permit Program  
PO Box 1049  
Columbus, OH 43216-1049

If you have questions regarding this letter you can contact me at (937) 204-1003, or via email at [eric.damian@epa.ohio.gov](mailto:eric.damian@epa.ohio.gov).

Sincerely,

Eric Damian
