**RE: Tylersville Road Widening; NPDES Permit # 1GC04516*AG; Compliance
Inspection Findings**

Dear Mr. Miles:

On Wednesday, July 10, 2013, I inspected the Tylersville Road Widening site near Hamilton, Ohio to determine compliance with the site's NPDES construction site storm water discharge permit. During the inspection, I spoke with a contractor whose name I did not record.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. I did not review the sediment control inspection logs or the site's storm water pollution prevention plan before my inspection. Just as a reminder, any areas at final grade must be permanently stabilized within seven days of reaching final grade within that area.

As a reminder, please note that when construction is complete, and all areas of the site have been permanently stabilized with vegetation or other ground cover, the construction permit must be terminated. A one page "notice of termination" (NOT) form found at [http://www.epa.ohio.gov/Portals/35/permits/General NOT.pdf](http://www.epa.ohio.gov/Portals/35/permits/General%20NOT.pdf) must be completed and sent to the following address:

Ohio Environmental Protection Agency
General Permit Program
PO Box 1049
Columbus, OH 43216-1049

No response to this letter is needed.

Mr. Stephen Miles
