**RE: All About Kids Daycare; NPDES Permit # 1GC04599\*AG; Construction Site Inspection**

Dear Mr. Davis:

On Tuesday July 16, 2013, I inspected the All About Kids Daycare project located at 5779 Filview Circle in Cincinnati, Ohio, to determine compliance with its NPDES construction site storm water discharge permit. I walked the property, but did not meet with anyone while at the site.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. I did not review sediment control inspection logs, or the site's storm water pollution prevention plan (SWPPP).

As a reminder, please note that when construction is complete, and all areas of the site have been permanently stabilized with vegetation or other ground cover, the construction permit must be terminated. A one page "notice of termination" (NOT) form found at <http://www.epa.ohio.gov/Portals/35/permits/General NOT.pdf> must be completed and sent to the following address:

Ohio Environmental Protection Agency  
General Permit Program  
PO Box 1049  
Columbus, OH 43216-1049

If you have questions regarding this letter you can contact me at (937) 204-1003, or via email at [eric.damian@epa.ohio.gov](mailto:eric.damian@epa.ohio.gov).

Sincerely,

Eric Damian  
Storm Water Group  
Division of Surface Water

ED/kb
