Fairland LSD Track and Visitor Bleachers  
Storm Water Construction Activity  
Permit #0GC01977\*AG

Tanner Stone Holsinger Donges and Co.  
1010 Coles Blvd.  
Portsmouth, Ohio 45662

To Whom It May Concern:

On July 2, 2013, I visited the site located on County Road 411 that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statues, Ohio Revised Code (ORC) Chapter 6111.

**No violations of the terms and conditions of the permit were discovered. Please continue to implement permit requirements as construction continues. Please note, at the time of inspection, it appeared that the storm water drains around the football field may not be adequately protected. The bales of hay may be letting sediment enter the drains during rain events. Please evaluate these controls and make appropriate changes if necessary.**

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or myself at (740) 380-5447.

Sincerely,

A handwritten signature in black ink, which appears to read 'Jared Kemper', is written over a light blue horizontal line.
