**Re: Notice of Termination Inspection at Heart of Ohio Trail/ Knox County.  
Permit Number: 4GC03759\*AG**

Dear Ms. Shackle:

This letter is written in follow-up to a construction storm water inspection by Jerome Hoke of the Ohio EPA, at Heart of Ohio Trail located from Thayer Road to Columbus Road on July 22, 2013. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities.

It appeared during the inspection that construction activity has been completed for this site. A Notice of Termination form is required provided the following items are addressed:

- All areas must be protected from erosion measured by a minimum vegetative density of 70 percent for all disturbed areas.
- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction mandates can be found at: <http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us)) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria with your submittal.
- If the vegetative requirements above are met please submit your Notice of Termination (NOT) concurrent with your submittal of the post construction verification. The NOT form can be found at: [http://www.epa.state.oh.us/portals/35/documents/NOT\\_app\\_fis.pdf](http://www.epa.state.oh.us/portals/35/documents/NOT_app_fis.pdf)
