**RE: Irwin-Simpson Road Widening; NPDES Permit # 1GC04428*AG
Construction Site Inspection**

Dear Mr. Reiners:

On Thursday, August 8, 2013, I inspected the Irwin-Simpson Road Widening project located in Mason, Ohio, to determine compliance with its NPDES construction site storm water discharge permit. I walked the property and met with Herman of the John R. Jurgensen Company.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. I did not review sediment control inspection logs, or the site's storm water pollution prevention plan (SWP3).

As a reminder, compliance with the permit must be upheld until construction is complete, and all areas of the site have been permanently stabilized with vegetation or other ground cover. Once final stabilization is achieved, the construction permit must be terminated by completing the one page "notice of termination" (NOT) form found at http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf and sending it to the following address:

Ohio Environmental Protection Agency
General Permit Program
P.O. Box 1049
Columbus, Ohio 43216-1049

If you have questions regarding this letter, you may contact me at (937) 204-1003, or via email at eric.damian@epa.ohio.gov or Chris Cotton at (937) 285-6442 and chris.cotton@epa.ohio.gov.

Sincerely,

Eric Damian
