**RE: Building 170, 175, 176 Demo / Building 13 Renovation  
NPDES Permit 1GC04646\*AG; Construction Site Inspection**

Dear Mr. Munson:

On Tuesday, August 13, 2013, I inspected Buildings 170, 175 and 176 Demo/Building 13 Renovation construction site located on the Wright-Patterson Air Force Base in Ohio, to determine compliance with its NPDES construction site storm water discharge permit. I walked the property with Zachary Olds of WPAFB's environmental management unit and met with you.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. I did not review the site's sediment control inspection records site's storm water pollution prevention plan (SWP3).

As a reminder, compliance with the permit must be upheld until construction is complete, and all areas of the site have been permanently stabilized with vegetation or other ground cover. Once final stabilization is achieved, the construction permit must be terminated by completed the one page Notice of Termination (NOT) form found at [http://www.epa.ohio.gov/Portals/35/permits/General NOT.pdf](http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf). It must be completed and sent to the following address:

Ohio Environmental Protection Agency  
General Permit Program  
P.O. Box 1049  
Columbus, OH 43216-1049

Building 170, 175, 176 Demo/Building 13 Renovation – Construction Site Inspection  
NPDES Permit 1GC04512\*AG
