**RE: Tomography Range; NPDES Permit 1GC04519\*AG; Construction Site Inspection**

Dear Mr. Wharton:

On Tuesday, August 13, 2013, I visited the Tomography Range projected located on the Wright-Patterson Air Force Base in Ohio, to determine compliance with its NPDES construction site storm water discharge permit. I walked the property with Zachary Olds of WPAFB's environmental management unit.

At the time of this visit, it was determined that the project in question has been completed. Land disturbed by various construction activities appeared to have been adequately stabilized with landscaping or the planting of grass and/or other vegetation.

Since the project has been completed, a Notice of Termination (NOT) form must be submitted to Ohio EPA. The form can be found at [http://www.epa.ohio.gov/Portals/35/permits/General\\_NOT.pdf](http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf). It must be completed and sent to the following address:

Ohio Environmental Protection Agency  
General Permit Program  
P.O. Box 1049  
Columbus, OH 43216-1049

If you have questions regarding this letter, please contact Chris Cotton, who will be taking lead on compliance in this area beginning August 19, 2013. He can be reached at (937) 285-6442, or via email at [chris.cotton@epa.ohio.gov](mailto:chris.cotton@epa.ohio.gov).

Sincerely,

Eric Damian  
Storm Water Group  
Division of Surface Water
