RE: AAEFES Shoppette; NPDES Permit 1GC04646*AG; Construction Site Inspection

Dear Mr. Williams:

On Tuesday, August 13, 2013, I inspected the AAEFES Shoppette construction site located on the Wright-Patterson Air Force Base in Ohio, to determine compliance with its NPDES construction site storm water discharge permit. I walked the property with Zachary Olds of WPAFB's environmental management unit and met with Dale Hull.

Based on my observations, there were no obvious violations of the project's storm water discharge permit. I reviewed the site's sediment control inspection records but did not review the site's storm water pollution prevention plan (SWP3).

As a reminder, compliance with the permit must be upheld until construction is complete, and all areas of the site have been permanently stabilized with vegetation or other ground cover. Once final stabilization is achieved, the construction permit must be terminated by completed the one page Notice of Termination (NOT) form found at http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf. It must be completed and sent to the following address:

Ohio Environmental Protection Agency
General Permit Program
P.O. Box 1049
Columbus, OH 43216-1049

AAEFES Shoppette – Construction Site Inspection (NPDES Permit 1GC04646*AG)
