RE: Factory Road Widening Project - NPDES permit 1GC04722*AG

Dear Mr. Moorman:

On Monday, August 19, 2013, I inspected the Factory Road widening project in Beavercreek to determine compliance with its National Pollutant Discharge Elimination System (NPDES) construction site storm water discharge permits. I did not meet with anyone while at the site.

Based on my observations, the project appeared to be in compliance with the more important parts of its permit. Inspection records and other administrative requirements were not evaluated.

As a reminder, please note that when construction is complete, and all areas of the site have been permanently stabilized with vegetation or other ground cover, the construction permit issued to these projects must be terminated. A one page Notice of Termination (NOT) form will be found at [http://www.epa.ohio.gov/Portals/35/permits/General NOT.pdf](http://www.epa.ohio.gov/Portals/35/permits/General_NOT.pdf). A completed form must be sent (assuming the criteria for *final stabilization* have been met – see page 37 of the permit) to the address shown on page 2 of the NOT instructions.

If you have questions regarding the letter, you can contact me at (937) 285-6442 or via email at chris.cotton@epa.ohio.gov.

Sincerely,

Chris Cotton
