 Canton, Ohio 44711-1750

Dear Mr. Laizure:

On August 28, 2013, this writer conducted a compliance evaluation inspection for the purpose of determining compliance with National Pollutant Discharge Elimination System (NPDES) permit 3GN00007*FD. Harrison Paint Corp. is a manufacturer of paint, specializing in custom formulations. NPDES permit 3GN00007*BG authorizes the discharge of non-contact cooling water to the City of Canton storm sewers. The discharge eventually enters the West Branch of the Nimishillen Creek.

At the time of the inspection, the flow was visually clear and cool to the touch. It is once thru non-contact cooling. A review of your monthly operating reports for the time period of July 2007 thru July 2013 indicated the following violations of your NPDES permit:

Numeric Violations:

None

Frequency Violations:
