RE: Notice of Termination Inspection at Big Walnut Trail Section 1 & 2 Trailway / Franklin County. Permit #: 4GC03580*AG

Dear Mr. Wetherholt,

This letter is written in follow up to a construction storm water inspection by Rachel Bellis and Elizabeth Pleta, of the Ohio EPA, at Big Walnut Trail Section 1 & 2 Trailway located at Big Walnut Creek from 4261 Morse Road to 4390 Cherry Bottom Road on August 1, 2013. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, we noted the following:

It appeared during the inspection that construction activity has been completed for this site. A Notice of Termination form is required provided the following items are addressed:

- All areas must be protected from erosion measured by a minimum vegetative density of 70 percent for all disturbed areas.
- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction mandates can be found at: <http://www.epa.state.oh.us/dsw/storm/CGP/CGDA.aspx>. Please submit to my attention (email preferred at harry.kalffool@epa.state.oh.us) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria with your submittal.
- If the vegetative requirements above are met please submit your Notice of Termination (NOT) concurrent with your submittal of the post construction
