**Re: Aleris Rolled Products, Pickaway County
Industrial Storm Water Permit 4GR00199*DG**

Dear Mr. Gulley:

This letter is written in regard to the storm water inspection that I conducted on May 30, 2012, at Aleris Rolled Products, aka, AlSCO Metals Corporation, located at 1 Reynolds Road, in Ashville, Ohio. The inspection was conducted to determine compliance with your industrial storm water permit. Your company produces aluminum trim coil products. I did not note any discharges from your facility to a storm water drain or waters of the state.

The following items were noted during the inspection:

1. Dumpsters located outside should have lids.
2. Full or partially full drums should be stored under roof in secondary containment.
3. You may obtain an industrial no exposure certification in lieu of your industrial storm water permit. The following weblink provides additional information for an industrial no exposure certification
http://www.epa.ohio.gov/dsw/storm/stormform.aspx#no_exposure_certification.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders
