Premise # 0322022020
Resolution of Violation

May 9, 2013

Mr. David Harrilla
John Bean Technologies Corporation
Food Solutions and Service Division
1622 First Street
Sandusky, Ohio 44870

Dear Mr. Harrilla:

This letter shall serve as a follow-up to the Notice of Violation (NOV) letter dated March 15, 2013, for the above-referenced facility. The purpose of this letter is to indicate the facility's return to compliance status. This was accomplished by the following:

1. Issuance of Permit to Install and Operate (PTIO) P0113888 for emission unit P001 (Abrasive Blasting Unit) on April 29, 2013.
2. On April 4, 2013, the facility provided emission calculations for its welding operations. Based upon the information provided, DAPC would agree that emissions associated with this unit would qualify for a "de minimis" permit exemption under OAC rule 3745-15-05. Emission code P002 was assigned to the welding operations and its permitting status was listed as "de minimis".

The facility should keep records to support emissions from its welding operations continue to meet the "de minimis" demonstration provided. This should include keeping records of the annual purchase amount and approximate annual usage of stainless weld wire.

3. DAPC has assigned an emission code of P003 to the tumbler. This emission unit is exempt from permitting in accordance with OAC rule 3745-31-03(A)(1)(d).
4. DAPC has assigned an emission code of B001 to the 5 mmBtu/hr boiler. This emission unit is exempt from permitting in accordance with OAC rule 3745-31-03(A)(1)(a).

Please note that this does not preclude the Director from seeking civil penalties pursuant to ORC section 3704.06 for the violation noted in the NOV letter. The decision on whether to pursue or decline to pursue such penalties regarding this is dependent on several factors, one of which is the company's future compliance with applicable Ohio EPA requirements.

Mr. David Harrilla
