Re: Erie County
Barnes Nursery, Inc.
Premise # 0322010284
Resolution of Violation

June 6, 2013

Ms. Sharon Barnes
Barnes Nursery, Inc.
3511 Cleveland Road West
Huron, Ohio 44839

Dear Ms. Barnes:

This letter shall serve as a follow-up to the Notice of Violation (NOV) letter dated May 30, 2013, for the above-referenced facility. The agency is in receipt of the facility's response letter dated June 3, 2013. Upon the review of the information submitted, the following has been determined:

1. The facility revised daily operational logs for F001 and F002 and provided an example of the revised operational logs. The revised operational logs are now compliant with the Terms and Conditions of P0113398 issued April 9, 2013. In addition, it is our understanding that the facility has educated its on-site operators regarding how to properly use the revised logs. The revised operational logs have been used since May 22, 2013.
2. The facility began installing an automated sprinkler system for the unpaved roadway located near the entrance of the facility on May 15, 2013. This system is now operational and a picture documenting the system was provided by the facility.
3. The water truck on site has begun applying water as a control measure to stockpiles and transfer points as necessary to control fugitive dust emissions as required in the Terms and Conditions of P0113398.

At this time, the violations cited in the NOV have been resolved. Please note that this does not preclude the Director from seeking civil penalties pursuant to ORC section 3704.06 for violations noted in the NOV letter. The decision on whether to pursue or decline to pursue such penalties regarding this is dependent on several factors, one of which is the company's future compliance with applicable Ohio EPA requirements.

Ms. Sharon Barnes
