**RESOLUTION OF VIOLATIONS  
NOTICE OF VIOLATION FOLLOW-UP LETTER**

Dear Ms. Campbell:

On March 26, 2013, the Cleveland Division of Air Quality (CDAQ) inspected Joy Global-Dragline Services Cleveland located at 9501 Allen Drive in Valley View.

On April 9, 2013, CDAQ issued a Notice of Violation requiring Joy Global-Dragline Services Cleveland to submit a permit-to-install/operate application for emission unit (EU) K001: Binks 20-10 floor type spray booth and miscellaneous metal parts coating line consisting of exhaust, fan, lighting filters and exhaust stack, as well as a corrective action plan outlining the steps that will be taken to ensure all reporting will be submitted to CDAQ as required by any future permit requirements.

On May 31, 2013, CDAQ received a plan of corrective action outlining steps that would be taken to ensure all reporting requirements are submitted in the future.

On June 6, 2013, CDAQ received a permit-to-install/operate application for EU K001.

The corrective action was received and appropriate steps were taken to bring the source into compliance. CDAQ has determined that no further enforcement action is warranted at this time, but reserves its right to take such action in the future if necessary.

CDAQ issues this letter with Ohio EPA's concurrence and does not excuse any violations of local, state and federal laws or regulations regarding air pollution control. Violations of air pollution control laws may be pursued in local court or referred to Ohio EPA or U.S. EPA for further enforcement action. Should you have any questions, please call Andrew Kenney at 216-420-7683. All correspondence with CDAQ must include the Ohio EPA facility identification number for Joy Global-Dragline Services Cleveland: 13-18-57-7951.

Sincerely,

A handwritten signature in cursive script that reads "Valencia White".

Valencia White  
Chief of Enforcement, CDAQ

Re: EPA VOC Report

Dear Andrew,

This letter is to advise you that we have put in place a process going forward to administer the annual filing requirement for the VOC report. I have established a meeting in the calendar for our Quality director, warehouse manager and myself each January 15 so we can accumulate the data required and submit. Per our discussion, this should comply with your requirements related to the existing permit in place for our facility.

Should you have any questions or need additional information, please feel free to contact me.

Sincerely,

Kim Campbell
