Facility ID: 1677020039  
E.L. Stone Company, Inc.  
Location: 2998 Eastern Road,  
Barberton, Ohio 44203  
Summit County

Dear Mr. Owensby:

This letter is in response to the Notice of Violation (NOV) issued to the above referenced facility on 6/21/2013. In the NOV, a compliance plan and schedule for achieving compliance was requested from the facility. The subsequent plan was received on 6/28/2013 and the appropriate steps were taken to bring the source(s) into compliance. The following information summarizes the violations cited and the resolution of each.

Monthly records were not being maintained for the cleanup materials used at the facility. Beginning 6/13/2013, E.L. Stone began recording the name, identification, amount, volatile organic compounds (VOC) content, and total VOC emissions of each cleanup material used at the facility. E.L. Stone also used past inventory records to determine the annual VOC emissions from cleanup materials for 2011 and 2012. The omitted VOC emissions from cleanup materials for 2011 and 2012 did not result in any exceedances of the VOC emission limitation contained in Title V Permit P0106592.

With the corrective actions taken to bring the source(s) into compliance, as indicated above, the referenced violations are considered resolved. Please note, however, that this does not preclude Ohio EPA's authority from seeking civil penalties pursuant to Ohio Revised Code (ORC) section 3704.06 for these violations. The decision on whether to pursue or decline such penalties regarding this matter is dependent on several factors, one of which is the company's future compliance with applicable requirements.

If you have any questions, please contact me by phone at (330) 812-3904 or email at [mtalcott@schd.org](mailto:mtalcott@schd.org).

Sincerely,

Megan Talcott  
Air Quality Engineer
