Subject: RE: #312 Stage II Recordkeeping

Kristin,

We are in receipt of the Stage II documents. The Stage II Training Certificate of Completion indicates compliance with OAC Rule 3745-21-09 (DDD)(3), and as such the Certified Warning Letter dated July 24, 2013 is considered resolved.

Please note that the Stage II Training Certificate is required to be kept onsite. The Ohio EPA is uncertain whether the certificate is not located at 28580 Chardon Road in Wickliffe, Ohio or the employees working at the time of the inspection simply could not find it. In the future, please ensure that a copy is located onsite in a visible location so that it's available for review during normal business hours.

We have updated our electronic and hard copy files to show that this facility has returned to compliance.

Thank you,

Misty Koletich
Environmental Supervisor
Ohio EPA DAPC-NEDO
