Re: RESOLUTION OF VIOLATION – Failure to submit annual Permit Evaluation Report for 2012
Facility ID: 1409000946
ContainerPort Group
Location: 2700 East Crescentville Road
West Chester, Ohio 45069 Butler County

Dear Mr. Kraus:

This letter is in response to the Notices of Violation (NOVs) issued to the above referenced facility on May 8, 2013 and June 5, 2013. In the NOVs, submission of the past due annual Permit Evaluation Report (PER) for 2012 was requested from the facility. The past due report was received on June 20, 2013 and brought the source into compliance. The following information summarizes the violations cited, and the resolution of each.

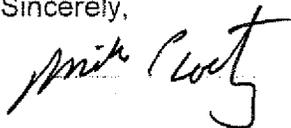

The annual Permit Evaluation Report was due February 15, 2013 for calendar year 2012. After ContainerPort Group disregarded several reminders from the local agency an NOV was sent May 8, 2013 for failing to submit the required report. There was no response to that NOV by ContainerPort Group. An additional NOV was sent ContainerPort Group on June 5, 2013. This NOV was identified as a THIRD NOTICE OF VIOLATION because ContainerPort Group was also sent an NOV on June 25, 2012 when the PER due February 15, 2012 was past due.

On June 19, 2013 ContainerPort Group submitted the past due PER by email and by FAX and commented that the requirement to submit the annual PER was being put on the calendar for January 15, 2014 to get the PER submitted on time for the next annual requirement.

With the corrective actions taken to bring the source into compliance, as indicated above, the referenced violations are considered resolved. Please note, however, that this does not preclude Ohio EPA's authority from seeking civil penalties pursuant to ORC section 3704.06 for these violations. The decision on whether to pursue or decline to pursue such penalties regarding this matter is dependent on several factors, one of which is the company's future compliance with applicable Ohio EPA requirements.

If you have any questions, please contact me at 513-946-7752..

Sincerely,

Mike Ploetz
