Re: Notice of State Permit to Operate Expiration

BP PRODUCTS NORTH AMERICA INC CINCINNATI
930 TENNESSEE AVE
Cincinnati, OH 45229

Dear Permit Holder,

The State Permit to Operate (PTO) described on the reverse side of this sheet will expire on the date shown. Pursuant to Chapter 3745-35 of the Ohio Administrative Code, renewal applications must be filed with the appropriate District Office or local air agency (DO/LAA) if this emissions unit is to continue in operation.

If you have questions regarding this notice or need PTIO application and/or Emission Activity Category (EAC) forms, please feel free to use our Web page, <http://www.epa.state.oh.us/dapc>, by viewing the topic "Permits". You may contact your DO/LAA to obtain hard copy forms. The DAPC data entry software, STARShip, can also be used to submit PTO applications electronically. Information on the STARShip software can be found by selecting the topic "STARShip" from our web page.

Please submit your renewal PTO application form and EAC form(s) by the permit expiration date. If any of the information on the reverse side is incorrect, please indicate the corrections when your renewal PTO application is submitted. If this emission unit is shut down or out of service, please notify the DO/LAA so it can be removed from active status. If a renewal PTO application has already been submitted for this emissions unit, please disregard this notice.

ALL DOCUMENTS SHOULD BE SUBMITTED AND QUESTIONS DIRECTED TO THE DO/LAA

The Ohio EPA is encouraging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Compliance Assistance and Pollution Prevention at (614) 644-3469.
