Mr. Gregory Tremonti  
North Toledo Graphics, LLC  
5225 Telegraph Road  
Toledo, Ohio 43612

RE: Information request pursuant to the Clean Air Act

Permit to install 04-01432 requires that North Toledo Graphics maintain records of control equipment downtime for emissions units K002, K005 and K007. The Toledo Division of Environmental Services (TDES) requests a copy of the aforementioned downtime log that provides the operating times for the capture (collection) system, control device, monitoring equipment and associated sources. These logs should report on the months of June 2006 through December 2006. Also include which emissions units remained in operation during the downtime of the capture (collection) system and whether they were operated at full capacity or a reduced capacity.

TDES requests this information be directed to Joslyn Summers at the Toledo Division of Environmental Services, 348 S. Erie, Toledo, OH 43606 within 14 days of the receipt of this letter.

Yours from Toledo – An All America City!

  
Joslyn Summers  
cc:

T. Casey Stephens, Commissioner, Toledo Division of Environmental Services
