RE: WARNING LETTER
FAILURE TO SUBMIT RENEWAL
PERMIT-TO-OPERATE
APPLICATIONS
FACILITY ID # 0243071311

Robert W. Pierce
North Ridge Veterinary Hospital
6336 North Ridge Rd.
Madison, OH 44057

Dear Mr. Pierce:

Our records indicate that North Ridge Veterinary Hospital located at 6336 North Ridge Rd. in Madison, has failed to submit Renewal Permit-to-Operate applications for the following emissions units:

<u>ID</u>	<u>Description</u>	<u>Expiration Date</u>
N001	Crawford Pathological Incinerator	February 23, 2006

Ohio Administrative Code Rule 3745-35-02 requires that the owner or operator of an air contaminant source apply for and obtain a permit-to-operate for each emission unit. Renewal applications are due within six months prior to the expiration date.

Please submit PTO applications to my attention at the Northeast District Office for the emissions units listed above **within thirty (30) days of receipt of this letter**. Blank PTO application forms are enclosed for your convenience. You may download additional forms if needed from our website at <http://www.epa.state.oh.us/dapc/fops/eac/eacforms.html>. Please feel free to make copies as needed. Failure to respond to this request in the stated time frame can result in a referral to the Central Office of Ohio EPA for the appropriate enforcement action.

If your records indicate that you submitted the applications on time, please resubmit these along with your documentation of the submittal being done on a timely basis.

If the emissions unit has been permanently shut down, please reply with the date of the shutdown. If the emissions unit has been temporarily shut down, you will need to obtain a permit-to-operate prior to its return to service. If it has been shut down for more than five years, you will need to obtain a permit-to-install as well as a permit-to-operate prior to its return to service. If the entire facility has been sold or shut down, please reply with the new owners information or the date of closure.
