RE: WARNING LETTER
FAILURE TO SUBMIT RENEWAL
PERMIT-TO-OPERATE
APPLICATIONS
FACILITY ID # 0204000319

CERTIFIED MAIL

Bruce Chapman
Western Reserve Farm Co-Op Inc.
P.O. Box 339
Middlefield, OH 44062

Dear Mr. Chapman:

Our records indicate that Western Reserve Farm Co-Op Inc., located at 195 E. Satin St. in Jefferson, has failed to submit Renewal Permit-to-Operate applications for the following emissions units:

<u>ID</u>	<u>Description</u>	<u>Expiration Date</u>
J001	Loading Rack	Nov. 1, 1994

Ohio Administrative Code Rule 3745-35-02 requires that the owner or operator of an air contaminant source apply for and obtain a permit-to-operate for each emissions unit. Renewal applications are due within six months prior to the expiration date.

Please submit PTO applications to my attention at the Northeast District Office for the emissions units listed above **within thirty (30) days of receipt of this letter**. Blank PTO application forms are enclosed for your convenience. You may download additional forms if needed from our website at <http://www.epa.state.oh.us/dapc/fops/eac/eacforms.html>. Please feel free to make copies as needed. Failure to respond to this request in the stated time frame can result in a referral to the Central Office of Ohio EPA for the appropriate enforcement action.

If your records indicate that you submitted the applications on time, please resubmit these along with your documentation of the submittal being done on a timely basis.

BRUCE CHAPMAN

If the emissions unit has been permanently shut down, please reply with the date of the shutdown. If the emissions unit has been temporarily shut down, you will need to obtain a permit-to-operate prior to its return to service. If it has been shut down for more than five years, you will need to obtain a permit-to-install as well as a permit-to-operate prior to its return to service. If the entire facility has been sold or shut down, please reply with the new owners information or the date of closure.

If the emissions unit has been permanently shut down, please reply with the date of the shutdown. If the emissions unit has been temporarily shut down, you will need to obtain a permit-to-operate prior to its return to service. If it has been shut down for more than five years, you will need to obtain a permit-to-install as well as a permit-to-operate prior to its return to service. If the entire facility has been sold or shut down, please reply with the new owners information or the date of closure.

The submission of the requested permit application does not constitute a waiver of Ohio EPA's authority to seek civil penalties as provided in ORC 3704.06. Ohio EPA will decide whether to pursue or decline to pursue penalties regarding this matter at a later date.

Should you have any questions, please feel to call me at (330) 963-1273.

Sincerely,

Ed Perez
Division of Air Pollution Control
Northeast District Office
