RE: WARNING LETTER
FAILURE TO SUBMIT RENEWAL
PERMIT-TO-OPERATE
APPLICATIONS
FACILITY ID # 0278080208

Jeff Carbone
Trumbull Cement Products
2185 Larchmont, NE
Warren, OH 44483

Dear Mr. Carbone:

Our records indicate that Trumbull Cement Products located at 2185 Larchmont, NE in Warren, Ohio, has failed to submit renewal Permit-to-Operate (PTO) applications for the following emissions units:

<u>ID</u>	<u>Description</u>	<u>Expiration Date</u>
F002	Plant Roadways & Parking Areas	June 17, 1997
F003	Aggregate Storage Piles	June 17, 1997
F004	Concrete Batch Plant	June 17, 1997

Please submit PTO applications to my attention at the Northeast District Office for the emissions units listed above **within thirty (30) days of receipt of this letter**. Blank PTO application forms are enclosed for your convenience. You may download additional forms if needed from our website at <http://www.epa.state.oh.us/dapc/fops/eac/eacforms.html>. Please feel free to make copies as needed.

Ohio Administrative Code Rule 3745-35-02 requires that the owner or operator of an air contaminant source apply for and obtain a PTO for each emissions unit. Failure to respond to this request in the stated time frame could result in a referral to the Central Office of Ohio EPA for the appropriate enforcement action.

What should I do if my records show the application was submitted?

If your records indicate that you have submitted the applications, please resubmit these along with your documentation of the submittal being done on a timely basis.

What should I do if the emissions unit has been shut down?

If the emissions unit has been permanently shut down, please reply with the date of the shutdown. If the emissions unit has been temporarily shut down, you will need to obtain a PTO prior to its return to service. If it has been shut down for more than five years, you will need to obtain a permit-to-install (PTI) as well as a PTO prior to its return to service.

JEFF CARBONE

Where can I get assistance filling out these forms?

Feel free to contact me directly with any questions you may have regarding this request or regarding Trumbull Cement Products compliance with Division of Air Pollution Control requirements.

You may contact Ms. Adrienne LaFavre from our Office of Compliance Assistance and Pollution Prevention (OCAPP) at (330) 963-1250 for additional assistance. Enclosed is a pamphlet explaining the free and confidential services available from OCAPP to small businesses.

The submission of the requested permit application does not constitute a waiver of Ohio EPA's authority to seek civil penalties as provided in ORC 3704.06. Ohio EPA will decide whether to pursue or decline to pursue penalties regarding this matter at a later date.

I look forward to receiving your complete PTO application within 30 days. Should you have any questions, please feel to call me at (330) 963-1223.

Should you have any questions, please feel to call me at (330) 963-1223.

Sincerely,

Dennis Bush
Division of Air Pollution Control
Northeast District Office
