Dear Ms. Bratcher:

The five-year Stage II compliance demonstration conducted at Hop-In Sunoco located at 33945 Vine St. in Eastlake, Ohio 44095 on June 14 and 30, 2010 and August 23, 2010, demonstrated compliance with the requirements of Ohio Administrative Code Rule 3745-21-09(DDD).

The next annual Stage II compliance test is due in January 2011 (testing was due in January 2010, but was not completed until August 2010).

This station has a history of failing tests because preventative maintenance has not been performed prior to test day. Because this station is under new ownership, enforcement action is not being taken at this time. However, if next year's testing fails or is not performed on time, enforcement action is likely. **Please be sure to any necessary repairs prior to the next test. It also may be necessary to perform extra testing and/or have a maintenance person on site during the testing event.**

Issuance of this letter does not constitute a waiver of Ohio EPA's authority to seek civil penalties as provided in ORC 3704.06. Ohio EPA will decide whether to pursue or decline to pursue penalties regarding this matter at a later date.

If you have any questions regarding this letter, please do not hesitate to contact me at (330) 963-1270.

Sincerely,

Tim Fischer
