RE: Warning for Violating Terms of Permit-to-Install 02-22352; DAPC Facility ID 02-38-00-0206

Dear Mr. Weaver:

Recently you informed this office that Prairie Lane Woodworking has violated its permit-to-install during the months of December 2006 and January 2007.

These reports stated that for 22 days in January and 19 days in December a sealer with a 5.26 pounds of volatile organic compound (VOC) per gallon of coating was employed in emissions unit R001. Prairie Lane Woodworking's permit-to-install 02-22352 established a coating VOC limit of 4.87 pounds of VOC per gallon based upon the information in your PTI application.

In the letter dated March 2, 2007, you stated Prairie Lane Woodworking will either employ a reformulated sealer or switch to a lower VOC product.

Failure to comply with the terms and conditions of Prairie Lane's permit-to-install and modifying the operation without first applying for and receiving a new PTI is a violation of Ohio Revised Code 3704.05 and Ohio Administrative Code rule 3745-31.

Be advised that violations of state air pollution regulations are punishable by a civil penalty of \$25,000 per violation. Issuance of this notice does not excuse past violation of federal, state and local laws regarding air pollution. This office reserves the right to pursue violations of air pollution regulations in the form of a referral to Ohio EPA's Central Office.

I trust this matter will be resolved quickly. If you have any questions, feel free to contact me at (330) 963-1298.

Sincerely,

Amysue O'Reilly
Environmental Specialist
Division of Air Pollution Control
