RE: NOTICE OF VIOLATION
FAILURE TO CONDUCT ANNUAL STAGE II
COMPLIANCE TESTING
DAPC FACILITY ID #0247030640

CERTIFIED MAIL

Hishan Jundi
Avon Lake Shell
33433 Lake Rd.
Avon Lake, OH 44012

Dear Mr. Jundi:

Our records indicate that Avon Lake Shell has not yet not conduct the required annual Stage II compliance testing. A test was attempted on March 18, 2008, but was not conducted due to an uncapped valve. The previous passing test was conducted on March 8, 2007. Annual testing is required.

Ohio Administrative Code (OAC) Rule 3745-21-09 (DDD) requires testing of the Stage II vapor control equipment annually for static leak and air to liquid ratio, as well as every five years for dynamic pressure. A copy of the rule is attached. We have also attached a listing of testing companies that routinely conduct Stage II tests in Ohio. Please contact one of them to arrange for testing before November 17, 2008.

We strongly advise that you conduct maintenance on your Stage II vapor control equipment prior to having the testing conducted. Also, be sure to have all of the records required by paragraph 3 of the above-mentioned rule available for inspection during the test.

Violations of state air pollution control regulations are punishable by a civil penalty of \$25,000 per violation. Issuance of this notice does not excuse any violation of state law regarding air pollution. An enforcement action will be initiated if this site does not return to compliance within 14 days of your receipt of this letter.

If you have any questions, please do not hesitate to contact me at (330) 963-1223.

Sincerely,

Dennis Bush
Environmental Manager
Division of Air Pollution Control
