NOTICE OF VIOLATION FOLLOW-UP LETTER

Dear Mr. Meintel:

On 1/12/09, the Cleveland Division of Air Quality (CDAQ) issued a Notice of Violation requiring Custom Clutch, Joint & Hydraulics, Inc. (CCJH) to submit PTIO applications for the new Kelco Steel Shot Blaster (P001), the Pyrolysis Oven (P006), and adequate records or calculations to establish "de minimis" or "exempt" status for the remaining active EUs (P002-P005). CDAQ is in receipt of a corrective action plan dated 1/26/09 which included PTIO applications for P001 and P006 along with a signed statement indicating that P004 and P005 are no longer in service. Quarterly deviation reports and additional calculations specific to EU P003 were received on 4/1/09.

The corrective action plan was received in a timely manner and appropriate steps were taken to bring the source into compliance. CDAQ has determined that no further enforcement action is warranted at this time, but reserves its right to take such action in the future if necessary.

CDAQ issues this letter with Ohio EPA's concurrence and does not excuse any violations of local, state and federal laws or regulations regarding air pollution control. Violations of air pollution control laws may be pursued in local court or referred to Ohio EPA or U.S. EPA for further enforcement action. Should you have any questions, please call Dave DeChant at 216-664-3213. All correspondence with CDAQ must include the Ohio EPA facility identification number for Custom Clutch, Joint & Hydraulics, Inc.: 13-18-00-6087.

Sincerely,
George Baker

In response to your letter dated 1/12/09

P001- Kelco Steel Shot Blaster – Operated approximately 2 hours per day. Particulates generated approximately 1 TPY. PTIO – application attached.

P002 - Ad-a-Blast Dry Peen Blaster, with Dust Collector (Bag House). Operated about one hour per day. Particulate generated 1000lbs per year. Original permit application attached.

P003 - Three wet surface grinders used to clean pressure plates, center plates, and flywheels. Particulates are controlled by a cyclone collection system. Generates approximately 1500lbs per year.

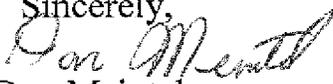

P004 - Clutch Disc Deriveter with Bag House. See attached
We no longer use this equipment.

P005 - Metal parts cleaner, Detergent. This machine was not used in 2008 and will be taken out of service.
It will no longer be used.

P006 - Gas fired Pyrolysis Oven (300,000BTU). We operate The oven approximately 6 hours per week.
PTIO application attached.

If there is anymore information that you need,
Please let me know.

Sincerely,

Don Meintel

Custom Clutch, Joint & Hydraulic Inc.

March 31, 2009

Ms. Valencia White
Cleveland Dept. of Public Health, Division of Air Quality
75 Erievue Plaza, 2nd Floor
Cleveland, OH 44114

Dear Ms. White:

Custom Clutch, Joint & Hydraulics (Custom Clutch) is in receipt of your February 4, 2009, letter. Below please find our response to each of the violations cited in the January 12, 2009, Notice of Violation.

1. PTIO for new Airless Blaster

The original unit, P001, received Registration Status on August 30, 1983. This unit was replaced in 2002 with a near identical unit, just a different manufacturer. Based on its use and the waste generated, we believe ~~this unit is exempt~~. The original unit was on registration status. Please see Attachment A which is enclosed with this letter for details on the exemption we are proposing.

2. No quarterly reports for P006

Please find enclosed quarterly reports for all of 2008. If you would like reports for other quarters, please let me know.

3. PTIO renewal for P006

A newly completed PTIO application is being submitted to CDAQ.

4. Information on the status of P002, P003, P004, and P005

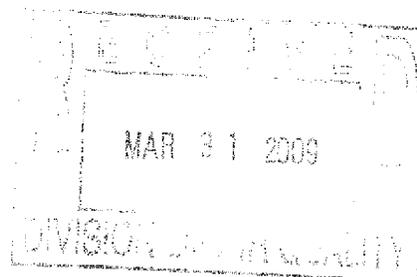

Units P004 and P005 have been disconnected and are no longer in use. Please find information on P002 and P003 as *de minimis* units in Attachment A.

Sincerely,

Mr. Don Meintel
Custom Clutch Joint & Hydraulics, Inc.

enclosures: 1. Attachment A
2. Quarterly reports for P006
