True North #375
17212 Lorain Road
Cleveland, Ohio
Facility ID: 13-18-00-6858

Dear Ms. Kimmy:

This letter is in response to your Notice of Violation Follow-Up Letter dated May 27, 2011 summarizing the Stage II compliance testing completed at the above site. Please be aware that Air to Liquid Ratio testing at dispenser #8 was the direct result of a factory defective hydraulic interface board. True North has made diligent effort to get the deficiencies at this dispensing point repaired to the satisfaction of the Cleveland Division of Air Quality and OEPA as expedient as possible.

In your letter, you reference future correspondence will be issued regarding the failure of Stage II testing in two consecutive attempts. This statement raises concern of the possibility that enforcement action will be administered by OEPA. Please be advised that any enforcement action issued concerning this matter will be contested as immediate action was taken by True North to get this issue resolved.

If you have any questions concerning this letter, please contact me at 330-792-9999 ex. 127.

Sincerely,

Truenorth Management LLC

David P. Nye, CHMM
Director Environmental Affairs
