Re: Violation--
Facility ID 13-18-00-8036

Dear Mr. Kenney:

We received a letter stating that we are in violation of operating emission units without permits. Per your suggestion, we called Adrienne FaFavre from OCAPP for assistance with this matter. She did come to our facility on February 9th, 2010 and gathered all the information that she needed. Ms. FaFavre suggested that I request more time to insure that we have all the necessary paperwork done. At this time I am requesting we have until March 31, 2010 so that Ms. FaFavre and Abel Metal has sufficient time to get all in proper order.

Please advise me if we are allowed the allocated time.

Thank you.

Sincerely,

ABEL METAL PROCESSING, INC.

JoAnn Kern

Office Manager
