LETTER OF WARNING FOLLOW-UP LETTER**

Dear Mr. McClain:

On March 5, 2012, the Cleveland Division of Air Quality (CDAQ) issued a Letter of Warning requiring American Wire and Cable Company to submit emissions calculations for the Davis Standard Extruder and Tin Melting Operation to substantiate de minimis status. CDAQ also required updated emissions calculations for the four extruders currently on Registration Status.

CDAQ is in receipt of emissions calculations that substantiate de minimis status for all the emissions units at the facility dated March 20, 2012.

The corrective action plan was received in a timely manner and appropriate steps were taken to bring the source into compliance. CDAQ has determined that no further enforcement action is warranted at this time, but reserves its right to take such action in the future if necessary.

CDAQ issues this letter with Ohio EPA's concurrence and does not excuse any violations of local, state and federal laws or regulations regarding air pollution control. Violations of air pollution control laws may be pursued in local court or referred to Ohio EPA or U.S. EPA for further enforcement action. Should you have any questions, please call Andrew Marantides at (216) 420-8049. All correspondence with CDAQ must include the Ohio EPA facility identification number for American Wire and Cable Company: 13-18-41-7991.

Sincerely,

A handwritten signature in cursive script that reads "Valencia White".

Valencia White  
Chief of Enforcement, CDAQ
